H. Downloading Invoices, Schedules, Rating Sheets ................................................................. 13  
I. Post-Registration: Certificates (Printing) .............................................................................. 13
Section I: STUDENT MANAGEMENT

A. STUDENT MANAGEMENT – Overview

1. On the homepage, click My Students (under Quick Links) or click Navigate and choose My Students from the menu items. Note the dark blue, horizontal ribbon (under the header) called the “breadcrumb trail.” See My Students in bold. No matter how deeply you go into each module, this “trail” of text will let you know where you are currently and where you have been, so you can click and return quickly to any previous page in the “trail.” Always use the “breadcrumb trail” instead of the “back” icon or arrow on your browser.

2. Enter a student’s name and click Search to help you quickly find a student if you have a long list that will not fit on one page.

3. Click Entries per page and choose how many entries you wish to view on that page.

4. Check Include Archived if you wish to see your archived students; their names will appear in red. Archived students are those you no longer teach. Although hidden from view, their records remain in the permanent Vivace database.

5. Columns
   a. Caret
      This small, subtle, light-gray triangle appears in the right-top corner of a column header cell in sortable columns. Click the caret (or cell text) to activate the column you wish to sort, and the caret will change to blue. On this page, you can sort by the criteria in the header cells: by ascending or descending in the alphabet, age, instrument or name of Junior Club.
b. **Camera icon**
   Click the Camera and a floating window will appear with the student’s entire performance history.
   If the student has a long history, you may need to scroll down. The Close button is in the bottom right corner.

6. **Action Column**
   This column is the starting point for most of your work! The icons help you go deeper into the system to perform many functions pertaining to student management.
   a. #1 Edit Student icon—you may correct spellings, name on official documents, etc.
   b. #2 Register for Festival icon—this means exactly what the description says.
   c. #3 Person with a list icon—click to see a student’s performance history as a web page rather than a floating window.
   d. #4 Red File Box icon—click to archive a student who 1) quit lessons, 2) graduated, 3) transferred to another teacher, etc.

**B. STUDENT MANAGEMENT – Adding a New Student | Instrument | Discipline**

1. On the homepage, click My Students (under Quick Links) or click Navigate and choose My Students from the menu items.
2. Adding an Individual Student’s Name and DOB
   a. Click + Add New Student and the floating window will appear.
   b. “Has this student ever been registered in the NFMC Festival System?” Answer “yes” or “no” only if you are positive if it’s “yes” or “no.” If you checked “I don’t know,” please know that Vivace is specifically designed to eliminate the duplication of a student in the database if you have entered the correct information. However, you, the teacher, must take the first step in preventing a duplication. **This is most likely to occur in the case of a transfer student**, and you will be unable to register the student until a National Admin corrects the error. **Stop and research if you suspect or know the student may be on another teacher’s student list in Vivace!**
   The floating window that appears will show you all the possible matches for the information that you entered. The names that match any part of the data you entered appear on this list, as well as the percentage of the data that matches.
   If you see your student, click Select. If not, add the new student.
   c. Spell the new student’s first, middle, and last name correctly. Click This person does not have a middle name if applicable.
   d. Enter the correct month, day, and year of the student’s birth. *(Because of display issues, Mac users may need to switch to Chrome or Firefox when adding any date of birth.)*

   ~ STOP ~ STOP ~ STOP ~ STOP ~ STOP ~ STOP ~ STOP ~ STOP ~ STOP ~ STOP ~
   If you are unsure of any of the above, do not add the student! Confirm complete information with the parent or student. Then, begin the process again. When you have confirmed all information and try to enter the student a second time and the information you entered does not correspond to a 90% match or higher, contact your Festival/Area Admin who will be able to assist you.

3. Selecting an Instrument | Discipline
   a. In the Select Instrument floating window, type in piano, voice, theory, etc. and click Search.
   b. Click Select the instrument or discipline from the Action column.
   
   **NOTE:** If you accidentally choose the wrong instrument when adding a student, first archive the student with the incorrect instrument. Then, repeat steps 1 and 2 and enter the correct instrument.
   Vivace will not allow a student to have more than one student-teacher relationship for the same instrument! Read E. EDITING STUDENT INFORMATION in this section to learn how to check the status.

   c. If the student will only participate in the Theory Event, select Theory as their instrument.
d. In the Add Student Information floating window, confirm all fields and correct any information as necessary.

e. Enter the Junior Music Club Name.

NOTE: The small blue and white NFMC Festival Participation Certificate template for printing certificates already contains the following text in the Junior Music Club line:
“Member of the ____________ Club.”
Consequently, do not repeat the word “the” or “Club” as you enter the Junior Music Club name!

f. Click Save. You will be taken back to your student list, and the student you just entered will appear on the list.

g. If the student has more than one instrument or discipline (i.e. piano, voice, etc.), see D. ADDING A STUDENT’S MULTIPLE INSTRUMENTS/DISCIPLINES in this section to add additional instrument or discipline relationships.

C. STUDENT MANAGEMENT – Adding a Group (Five or More Performers)

1. Click + Add New Student and the floating window will appear.
2. “Has this student already been registered in the NFMC Festival System?” Click the appropriate answer.
3. Click Group, enter Group Name and click Next.
4. In the Select Instrument window, enter an instrument and click Search.
5. See the instrument and click Select in the Action column.
6. See the Add Student Information window and complete all fields; click Save.

D. STUDENT MANAGEMENT – Adding a Student’s Multiple Instruments/Disciplines

Students need to have a “relationship” established with each instrument/discipline in which they enter Festival events. This means that students may appear multiple times in your My Students list, i.e., once for each instrument/discipline.

1. To add additional student instrument relationships, click My Students (under Quick Links) or click Navigate on the homepage and choose My Students from the menu items.
   You will now see the student instrument relationship for each of your students in the Instrument column.
2. Click the Edit icon in the Action column to the right of the student’s name.
3. Click the Current Relationships tab and you will see the student’s current teachers and instrument/discipline relationships.
4. Click +Add New Relationship.
5. In the Select Instrument box, enter the instrument/discipline and click Search; in the Action column, click Select.
6. In the Add New Relationship Junior Club window, enter the Junior Club Name; click Save.
   • If a student studies different instruments with different teachers, each teacher should add that student to their own My Students list.
   • If a teacher wishes for Theory to be shown as an instrument/discipline in the My Students list, Theory must be added as a current relationship.

NOTE: Vivace allows a student to be listed in only one My Students list for each instrument/discipline relationship. Consequently, if a student switches teachers, the previous teacher must archive that student before the new teacher can add the student to their My Students list.
E. STUDENT MANAGEMENT – Editing Student Information | Viewing Teacher Relationships | Viewing Performances List

1. Editing Student Information
   a. On the homepage, click My Students (under Quick Links) or click Navigate and choose My Students from the menu items.
   b. Click the Edit icon to the right of the name.
   c. Enter the preferred name by which the student would like to be addressed (nickname, etc.). Enter the name for Official Documents if different than the First, Middle, Last Name fields.
   • If the Name for Official Documents is left blank, Vivace will by default use the First, Middle, and Last Names for the Certificates-PDF download. If a student wishes their preferred name or only their first and last names to be used, be sure to fill out this field.
   • However, if your Festival Area is going to use a report Certificates-Export, a name must be filled in here! Contact your Festival/Area Admin to see which applies to you.

2. Viewing Teacher Relationships
   a. Continue on that page.
   b. Click Current or Previous Relationships and view teacher name(s) in the first two columns.

3. Viewing Performances List
   a. Click Navigate.
   b. Click My Students.
   c. Click the Performances List icon in the Action column to the right of the student’s name. The Camera icon (left of the student’s name) shows the same list in a floating window.
   d. OR, download the Student History Report. (See G. DOWNLOADING A STUDENT’S HISTORY REPORT, etc. in this section.)

F. STUDENT MANAGEMENT – Archiving a Student | Unarchiving a Student

1. On the homepage, click My Students (under Quick Links) or click Navigate and choose My Students from the menu items.
2. Click the Edit icon in the Action column to the right of the name.
3. Click Current Relationships.
4. Click the Red File Box icon for the instrument(s) you wish to archive.
5. Confirm your action in the pop-up.
   • To view your archived students, check the “Include Archived” box, and archived students will appear in red on your list. In the Action column, the beginning and end dates of the association are noted.
   • If another teacher adds that student to their My Students list, your previous association will be shown in the Previous Relationships tab.
6. To unarchive a student, simply complete the steps in B. STUDENT MANAGEMENT – ADDING A NEW STUDENT | INSTRUMENT | DISCIPLINE.

G. STUDENT MANAGEMENT – Downloading s Student’s History Report (Ratings | Cup Points | Alternating Points)

1. Click Reports under Navigate or Quick Links on the homepage.
2. In the Students tab, choose the current Festival Year.
3. Click Download Report; open and print the PDF.
   • REMINDER: The History Report will not be updated until all ratings have been certified following a Festival. Your Festival/Area Admin will notify you when the certification has been done.
   • ENSEMBLE PARTNER RATINGS: When a rating has been entered for the student printed on the Rating Sheet, Vivace automatically enters all ratings for the ensemble partner(s).
   • ALTERNATE EVENTS POINTS: If you have a student who performed an alternated event, the Student History Report currently does not show the number of points earned. Be assured that the
final calculation of points is correct, however. To view the actual points earned for a specific, alternated event, go to My Students and the individual student’s performance list.

Section II: FESTIVAL REGISTRATION

IMPORTANT THINGS TO KNOW BEFORE YOU BEGIN
All registrations follow the same basic process: 1) select the student, 2) choose the event/class, 3) enter required and choice piece information, 4) note scheduling issues, and 5) confirm rules compliance. Several specific registrations are given in this document.

It is important to have a student’s complete registration information before you begin the process. This includes the event, class, required piece, choice piece and composer, any scheduling concerns, i.e., times, siblings, other instrumental or vocal solos, and the accompanist, if applicable. Gather all the information before you start.

If you begin a registration and discover you cannot finish it; you will have to use the “breadcrumb trail” to get back to a previous page. None of your work will be saved, however, and you will have to start the registration all over again!

If your student is going to be registered for more than one event, have all of the information for each event before you begin. In other words, it is easier and faster if you enter all of the events for that student at one time.

TIME ZONE CHECK
Please note that Festival open and close times are Eastern times. Make sure you know what time that is in your Festival Area’s local time. Do not wait until the last minute to register your students! The registration process always takes longer than you think, even though you may be experienced. Get it done well before your local deadline.

DATE CHECK
First, check if registration is open for your Festival. Navigate to the Festivals module using the Navigate button or the Quick Links. Check the registration open/close date column to see when your Festival registration opens and closes.

STUDENT AGE CHECK
The system uses the Festival Start Date when calculating a student’s age for registration. Make sure you check the Festival Start Date for your Festival so that you will know the impact it will have on students who may be pre-primary age or students who are approaching the age of 19. If you have any questions about this, contact your Festival/Area Admin.

SEARCH STRATEGIES | ACCENTS | DIACRITICAL MARKS
There are many search fields throughout Vivace. Knowing effective search strategies will help you find the information you need easily and quickly!

Entering complete names in the search field may be necessary at times. However, just the first or last name will often be sufficient. Many times you will not even need to type an entire name. Generally, less is better, and using only 4-5 letters will be successful most of the time. Also, if you select unique letter combinations in the name (or word), those are optimal search criteria. For example: Stravinsky— use “vins.” Adjust your criteria as needed.
If you wish to find a name of a composer, teacher, piece, etc. that contains an accent or diacritical mark, you must type the accent mark in your search, or it will not find it in the database. However, searching the unaccented part of the name will find what you need.

Sample searches and results for the composer Barés, Basile Jean:

1. search for “bar” — the search finds the composer
2. search for “Baré” — the search finds the composer
3. search for “bare” — the search does not find the composer

* * * Never, never, never use 1) quotation marks, 2) &, or 3) a comma in a search. * * *

A. REGISTRATION – Registering a Solo Event

1. Selecting the Correct Event and Class
   a. On the homepage, click My Students (under Quick Links) or click Navigate and choose My Students from the menu items.
   b. In the Action column in the row of the student’s name, click the Register for Festival icon; see the floating window.
   c. Click the Select button for the Festival in which the student will be participating. For most teachers, there will be just one Festival listed. However, if your Area holds different events at different times, i.e., a fall ensemble Festival and a spring solo Festival, there may be more than one listed.
   d. In the next window, select the Section (in Bulletin order); see the specific Event categories appear to the right.
   e. In the Action column, select the down arrow in the Event column, then see the class listings.
   f. Click Select to choose the class. Pause and check all the information! If you see an error, use the Find buttons to change the information in the respective fields. If the information is accurate, click Register.
   g. See the new window! Under the blue “breadcrumb trail,” you will see the name of the Festival and the Event:Class. Again, double-check the Event:Class field for correct information. If you need to change the class, use the Find button in this field to select another class.
   h. Note: If a student is alternating events (LFO piano solo, ensembles, etc.), be sure to check the Alternate? checkbox in the Performer section.

Optional short-cut to the Registration window:
   1) From Navigate or Quick Links on the homepage, click Festivals.
   2) In the Action column to the right of the Festival, click the Register for Festival icon.
   3) Perform a search for the student and proceed as outlined above.
2. **Selecting the Required Piece**
   a. Click **Select** in the **Action** column.
      • If you do not see the piece, click **Find** and a floating window will appear.
      • Type any part of the title or a unique word in the title in the **Search** box, then click **Search**.
      • For a concerto, also enter the name of the key to help narrow your search.
   b. Lastly, contact your Festival Admin if you believe a piece is missing in the Vivace database.
   c. **Duration:** This is optional for each Festival Area. If you see this box, you are required to enter the duration of the **Required Piece**.

3. **Entering the Choice Piece**
   a. Accurately enter the complete title in the **Piece Name** field.
   b. **Choice Piece Composer | Accent or Diacritical Marks**
      1) Click **Find** next to **Composer**.
      2) Utilize the search strategies (pgs. 8-9) to enter part of the name of the composer in the **Search** field, then click **Search**.
      3) If you see the composer, click **Select**, and you will be taken back to the registration page.
      4) If you do not see the composer in the search results, check to see if you have correctly entered the search criteria and try again. If the composer is not in the database, you will not be able to register the student at this time.

**NOTE:** It is the teacher's responsibility to follow all search steps above before asking for a composer to be added to the database. If you do request a composer be added, it is the teacher's responsibility to provide the 1) full name, 2) year of birth, 3) year of death (if applicable) and nationality to your Festival/Area Admin who will forward this request to the Bulletin Admin. **Please research before asking!**

After you receive confirmation that the new composer has been added to the database, you will be able to register the student.

5) If a composer name, a piece, an arranger or a publisher contains an **accent or other diacritical marks**, please carefully follow the steps above before submitting a request for the item to be added to the database.
c. **Arranger and Publisher:**
   You are encouraged to enter an arranger *(for events that allow arrangements)* and a publisher for all pieces.

d. Enter the Duration if this is visible.

5. **Certifying correct number of measures**
   Click the checkbox after you have confirmed the **Choice Piece** contains the correct number of measures.
   - If the choice piece performed does not contain the correct number of measures, unfortunately, the student will be disqualified. So, be very diligent to make sure the piece contains the right number of measures.

6. **Entering Scheduling Notes**
   Enter all applicable notes such as accompanist’s name, siblings participating in the same Festival with you or another teacher, special time concerns, and any other scheduling notes that the Festival Admin needs to know.
   - To make scheduling easier, find out the exact input format preferred by your Festival/Area Admin.
   - If you need extra space, click the 3 diagonal lines in the lower right-hand corner and drag downward.
   - **Never, never, never** enter 1) “none,” 2) “n/a” or 3) **anything else** in this field which is not a scheduling issue! In other words, leave blank if there are no scheduling issues.

7. **Finally, . . .**
   - **Click the checkbox confirming compliance with Festival rules** and then click **Save Changes**. If you have forgotten to fill in any required information, an error message in red will notify you of anything missing.
   - If you have started a registration and cannot finish, use the “breadcrumb trail” to return to a previous page. You will get a message confirming you want to leave the current page.
   - If you have done everything correctly, there will be a message in green at the top confirming your successful registration.
   - This is the **only** confirmation of the registration you will receive at this time.
   - You can then use the Quick Links above the “breadcrumb trail” to complete further registrations.
   - Remember to do **all** the events for the same student at the same time.

B. **REGISTRATION – Registering a Duet, Trio, or Quartet Event | “Visiting” Student**

1. On the homepage, click **My Students** *(under Quick Links)* or click **Navigate** and choose **My Students** from the menu items.
2. In the **Action** column in the row of the first student’s name, click the **Register for Festival** icon and see the floating window.
3. Click the **Select** button for the Festival in which the students will be participating.
   - For most teachers, there will be just one Festival listed. However, if your Area holds different events at different times *(a fall ensemble Festival and a spring solo Festival)*, there may be more than one listed.
4. In the next window, select the **Section** *(in Bulletin order)*; see the specific Event categories appear to the right.
5. In the **Action** column, select the **down** arrow in the **Action column**, then see the **Class** listings. Click the **Select** button to choose the **Class**.
   - **Pause and check all the information!** If you see an error, click **Close** and begin again with the correct information; if the information is accurate, click **Register**.
6. On the next page to the right of the performer, you will see **Alternate**? **. This refers to ALTERNATING EVENTS in the Official Federation Cup Award Plan section of the Bulletin.** Check the box if the students are alternating ensemble events.
7. Under Performer 2, Performer 3 (if trio), or Performer 4 (if quartet), click Find. The system will search all students in the Festival Area database.
8. In the Students window, enter the name (or part of the name) and click Search.
9. Find the student and click Select in the Action column.
10. Continue by entering information in each field as described for solo events—A: REGISTERING A SOLO EVENT.
   • Occasionally, students from different Festival Areas play duets or ensembles together. Please contact your Festival/Area Admin to add a “visiting” student if this situation occurs.

C. REGISTRATION – Registering a Theory Event

1. To enter a student in the Theory Event, complete the steps in A. REGISTERING A SOLO EVENT, 1, a-c.
2. Click Select to the right of the Festival.
3. Click Musicianship Section at the bottom of the Bulletin Section list on the left.
4. In the Action column on the right, click the downward arrow to the right of Theory.
5. Choose the Level by clicking Select and you will automatically return to the Register for a Performance window.
6. Click Register which will take you to the registration screen; register the student.
7. Check “By checking this box. . .” and click Save Changes.

D. REGISTRATION – Registering a Declared Solo Class (Concerto, Ensemble, Etc.)

Declaring a Solo Class is an action that must be completed by the Festival/Area Admin, not the teacher. This situation occurs when (in the same Festival year) a Festival Area holds events with solo correlations earlier than the solo Festival events, or if a student (without a previous year’s solo performance and rating) chooses not to enter a solo event in addition to concerto, ensemble, or other events that have solo class requirements.

The Declared Solo Class will be considered identical to a Superior performance when Vivace performs analysis for ensemble partners or other correlations. In other words, it is just like the entrant received a Superior rating for a solo if they had performed one. For entrants who will be performing a solo in a later Festival, it is advisable to have the Declared Solo Class be one class lower than the class they will be entering.

EXAMPLE 1
A student wishes to enter the Concerto Event and Sight Playing/Sight Singing Event but not a solo event. This student will need to have a declared solo class.

EXAMPLE 2
A student wishes to enter a solo event and duet event. The duets are held in a separate Festival in the fall and the solo events are in the spring Festival. This student will need to have a declared solo class.

Your Festival/Area Admin will give you the deadline for submitting student declared solo class information.
E. **REGISTRATION** – Using the Concerto Registration “Combine” Option

When the option to “combine events” is selected during a Concerto Event registration, the school grade field will automatically display. Enter the student’s current school grade in the field.

F. **REGISTRATION** – Editing or Deleting A Registration

1. On the homepage, click **My Students** (under **Quick Links**) or click **Navigate** and choose **My Students** from the menu items.
2. To the right of the student’s name, click the **Go to Performance** icon in the **Action** column.
3. See **Registered** in the **Status** column for that student.
4. Click the **Edit** icon to make changes and **Save**.
5. To delete a registration **before** it has been approved, click the **Trash Can** icon in the Action column.
6. If an **approved** registration needs to be deleted, you will need to contact your Festival/Area Admin.

G. **REGISTRATION** – Viewing All Registrations

1. On the homepage, click **Festivals** (under **Quick Links**) or click **Navigate** and choose **Festivals** from the menu items.
2. See the Festival in the **Festival Name** column and click the **Performances List** icon in the **Action** column; view all students you have registered and see the registration status in the **Status** column.

H. **REGISTRATION** – Downloading Invoices, Schedules, Rating Sheets

After you have completed all registrations, your Festival/Area Admin will email you an invoice and your student schedule. This email will not arrive until after registrations have closed and scheduling is completed for your entire Festival, so please be patient.

In your Festival Area, if teachers may print their own Rating Sheets, follow these steps:
1. On the homepage, click **My Students** (under **Quick Links**) or click **Navigate** and choose **My Students** from the menu items.
2. Scroll (or do a search) for the student whose Rating Sheet you wish to print.
3. Click the **Go to Performances List** icon in the **Action** column to the right of the student.
4. Click the **PDF** icon in the **Action** column, download and print.

I. **POST-REGISTRATION** – Certificates (Printing)

In order to print student **Participation** and/or **Superior Certificates**, please contact your Festival/Area Admin who will send you a file of your choice. A PDF file will print from Adobe, and an Excel file is for use as a mail merge.

NOTE: To ensure the barcode prints on Rating Sheets, be sure to test print first!
If the barcode does not fully print, adjust the scaling settings to “NO SCALING” or “100%” or “FIT” in your print dialogue window. Depending on your printer or system, you may need to experiment.
**Need help?**

If you are working in Vivace and need help, hovering over various words or icons will make a tooltip (informational text box) appear. Also, there is a Get Help button at the bottom of many pages. As a reminder, always refer to this Guide, and view the videos at the Support Center. If you still have an issue, please escalate to the contact person one level above you as seen in the Support Flow Chart.

Support Center: help.nfmc-music.org/

**Fig. 3 Vivace Support Flow Chart**

![Vivace Support Flow Chart](image)

**Please note . . .**

All Vivace Guides are updated and posted on the Support Center beginning August 31 for the current Festival year (July 1-June 30). New features and functionalities are added to Vivace from time to time after publication, however, and notification is sent via our customary memo procedure.

Stay up-to-date by also checking:
help.nfmc-music.org/new-vivace-functionalities/
